

Kinora Peripheral Nervous System

Clinical AI Orientation (Part 16)

Peripheral Nerves, Plexuses, Entrapments & Neurodynamics

Version 1.0 — Kinora Admin Conocimientos Upload

Disclaimer

*Educational only. **Progressive neurologic deficit, cauda equina, acute foot drop with trauma, or suspected acute inflammatory neuropathy — urgent referral.***

Table of Contents

- 1. Upper Limb Nerves
- 2. Lower Limb Nerves
- 3. Plexuses

1. Upper Limb Nerves

RECORD: Median

ID: PNS-UE-01

Nerve: Median

Roots: C5–T1

Motor Supply: Forearm flexors (most), LOAF hand

Sensory Supply: Palmar lateral hand, digits 1–3.5

Entrapment Sites: Pronator, carpal tunnel

Clinical Tests: Phalen, Tinel, weakness APB

Neurodynamic Tests: Median bias ULNT

Rehabilitation: Nerve glides, ergonomics, night splint CTS

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Ulnar

ID: PNS-UE-02

Nerve: Ulnar

Roots: C8–T1

Motor Supply: FCU, FDP medial, most intrinsic

Sensory Supply: Medial hand, digit 5

Entrapment Sites: Cubital tunnel, Guyon

Clinical Tests: Froment, Tinel elbow/wrist

Neurodynamic Tests: Ulnar bias ULNT

Rehabilitation: Avoid prolonged elbow flexion; glides

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Radial / Posterior Interosseous

ID: PNS-UE-03

Nerve: Radial / Posterior Interosseous

Roots: C5–T1

Motor Supply: Triceps, wrist/finger extensors

Sensory Supply: Dorsal hand (superficial radial)

Entrapment Sites: Spiral groove, arcade of Frohse

Clinical Tests: Wrist drop, thumb extension

Neurodynamic Tests: Radial bias

Rehabilitation: Splint, progressive loading

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Musculocutaneous

ID: PNS-UE-04

Nerve: Musculocutaneous

Roots: C5–C7

Motor Supply: Coracobrachialis, biceps, brachialis

Sensory Supply: Lateral forearm (lateral cutaneous)

Entrapment Sites: Coracobrachialis

Clinical Tests: Biceps weakness

Neurodynamic Tests: ULNT variants

Rehabilitation: Trauma rehab

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Axillary

ID: PNS-UE-05

Nerve: Axillary

Roots: C5–C6

Motor Supply: Deltoid, teres minor

Sensory Supply: Sergeant's patch

Entrapment Sites: Quadrilateral space; shoulder dislocation

Clinical Tests: ABD weakness

Neurodynamic Tests: —

Rehabilitation: Post-dislocation screen

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Suprascapular

ID: PNS-UE-06

Nerve: Suprascapular

Roots: C5–C6

Motor Supply: Supra/infraspinatus

Sensory Supply: AC/GH sensory branches

Entrapment Sites: Suprascapular/spinoglenoid notch

Clinical Tests: ER/ABD weakness atrophy

Neurodynamic Tests: —

Rehabilitation: Overhead athlete

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

2. Lower Limb Nerves

RECORD: Sciatic

ID: PNS-LE-01

Nerve: Sciatic

Roots: L4–S3

Motor Supply: Hamstrings then tibial/fibular

Sensory Supply: Via branches

Entrapment Sites: Piriformis/deep gluteal continuum

Clinical Tests: SLR

Neurodynamic Tests: SLR/slump

Rehabilitation: Deep gluteal syndrome care

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Tibial

ID: PNS-LE-02

Nerve: Tibial

Roots: L4–S3

Motor Supply: Posterior compartment, intrinsics via plantar

Sensory Supply: Plantar foot

Entrapment Sites: Tarsal tunnel

Clinical Tests: PF weakness, plantar sensory

Neurodynamic Tests: Tibial bias SLR

Rehabilitation: Tarsal tunnel care

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Common Fibular

ID: PNS-LE-03

Nerve: Common Fibular

Roots: L4–S2

Motor Supply: Short BF; then deep/superficial fibular

Sensory Supply: Lateral leg/dorsum

Entrapment Sites: Fibular neck

Clinical Tests: Foot drop

Neurodynamic Tests: Fibular bias

Rehabilitation: AFO, decompress

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Femoral

ID: PNS-LE-04

Nerve: Femoral

Roots: L2–L4

Motor Supply: Iliacus, quads, sartorius

Sensory Supply: Anterior thigh; saphenous

Entrapment Sites: Iliacus hematoma; inguinal

Clinical Tests: Quad lag

Neurodynamic Tests: PKB femoral

Rehabilitation: NMES quads

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Obturator

ID: PNS-LE-05

Nerve: Obturator

Roots: L2–L4

Motor Supply: Adductors

Sensory Supply: Medial thigh

Entrapment Sites: Obturator canal

Clinical Tests: Adductor weakness

Neurodynamic Tests: —

Rehabilitation: Pelvic/hip ddx

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Lateral Femoral Cutaneous

ID: PNS-LE-06

Nerve: Lateral Femoral Cutaneous

Roots: L2–L3

Motor Supply: None

Sensory Supply: Lateral thigh

Entrapment Sites: Inguinal ligament (meralgia)

Clinical Tests: Sensory only

Neurodynamic Tests: —

Rehabilitation: Weight loss, avoid belts

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

3. Plexuses

RECORD: Brachial Plexus

ID: PNS-PLX-01

Roots: C5–T1

Injury_Patterns: Erb (C5–6), Klumpke (C8–T1), burners/stingers

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Lumbar Plexus

ID: PNS-PLX-02

Roots: L1–L4

Major_Nerves: Iliohypogastric, ilioinguinal, genitofemoral, lateral femoral cutaneous, femoral, obturator

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Sacral Plexus

ID: PNS-PLX-03

Roots: L4–S4

Major_Nerves: Sciatic, pudendal, superior/inferior gluteal

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.
