

Kinora Red Flags Master Database

Clinical AI Orientation (Part 18)

Cross-Region Emergency & Urgent Referral Indicators

Version 1.0 — Kinora Admin Conocimientos Upload

Disclaimer

*Educational screening aid — **when in doubt, refer urgently.** This does not replace emergency protocols.*

Table of Contents

- 1. Red Flag Conditions

1. Red Flag Conditions

RECORD: Fracture

ID: RF-01

Clues: Trauma, Ottawa+/Canadian C-Spine+/NEXUS, inability to WB, deformity, osteoporosis + pain

Action: Immobilize/image/refer

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Cancer

ID: RF-02

Clues: Night pain, unexplained weight loss, history of cancer, constant progressive pain

Action: Urgent medical referral/imaging

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Infection

ID: RF-03

Clues: Fever, hot swollen joint, IVDU, immunosuppression, spinal infection risk

Action: Emergency if septic arthritis/spinal infection suspected

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Cauda Equina

ID: RF-04

Clues: Urinary retention, overflow incontinence, saddle anesthesia, bilateral sciatica, ULNAR? — bilateral leg neuro + bowel/bladder/sexual dysfunction

Action: Emergency MRI/surgical pathway NOW

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: DVT

ID: RF-05

Clues: Wells factors, unilateral calf swelling

Action: Medical duplex pathway

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: PE

ID: RF-06

Clues: Sudden dyspnea/chest pain/syncope post DVT risk

Action: Emergency

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Compartment Syndrome

ID: RF-07

Clues: Disproportionate pain, passive stretch pain post trauma/cast

Action: Emergency surgical

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Inflammatory Arthritis

ID: RF-08

Clues: Morning stiffness >>1h, multi-joint swelling, systemic features

Action: Rheumatology referral

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Septic Arthritis

ID: RF-09

Clues: Acute hot joint, fever, non-WB

Action: Emergency aspiration/abx pathway

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Vascular Compromise

ID: RF-10

Clues: Absent pulses, cold pale limb, CAD features (neck), 5 Ps of ischemia

Action: Emergency

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Progressive Neurological Deficit

ID: RF-11

Clues: Worsening strength/sensation, myelopathy signs, ascending deficits

Action: Urgent imaging/neurospine

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.

RECORD: Cervical Arterial Dysfunction

ID: RF-12

Clues: Sudden severe neck/head pain, Horner, CN signs, dizziness with neuro features

Action: Emergency stroke/CAD pathway — avoid end-range manual Rx

References: Standring S. Gray's Anatomy. Moore KL et al. Clinically Oriented Anatomy. Netter FH. Neumann DA. Kinesiology of the Musculoskeletal System. Magee DJ. Orthopedic Physical Assessment. Brukner & Khan Clinical Sports Medicine.
